Reserved parking is just that: **RESERVED**. You can of course groom and set up ex-pens in reserved parking. All spots are on hard top parking lot, little or no grass is next to most spots. Most are on the two sides of the hotel and the ring is not visible. Each reserved spot is a double width parking spot (approximately 20 feet wide by 20 feet long) which allows for the vehicle (car, van, box truck) and space to work.

Those with large rigs or needing additional space will want to reserve 2 spots to allow for their needs. **This area is NOT for motor homes (i.e. vehicles with bathrooms/kitchens, etc.).** **Priority for the spots will be based on: dogs staying in vehicles, length of spot reservation and guests staying at the Clarion Inn.** Those wanting to park together should send their reservations in together; you all must have the same length of reservation to be together.

There is free parking at the show site for all exhibitors. **However, use of cones or anything to save space in the hotel parking lot is prohibited and if used will be removed.** For in/out we recommend a reserved spot; it may not be near your hotel room.
